LINERO MosaiQ

VERSATILE, INFINITELY VARIABLE, EYE-CATCHING DESIGN.

LINERO MosaiQ

## LINEAR ORGANISATION, MODULAR VERSATILITY

KESSEBÖHMER

ROUTINE TASKS BECOME A REAL PLEASURE ONCE YOUR KITCHEN (OR BATHROOM) IS ORGANISED THE WAY YOU LIKE IT. EFFICIENCY MEANS HAVING THE THINGS YOU NEED OFTEN READY TO HAND. LINERO MosaiQ KEEPS THINGS WHERE THEY MAKE SENSE FOR YOUR WORKSTYLE.

The basic element for this splashback system is an aluminium rail attached to the wall. The storage elements are simply attached above or below the rail, exactly where you want them. With the integrated lighting strip, all the elements are softly illuminated. Swapping elements around couldn't be easier. The espresso cups, a pot of basil (or aftershave and a toothbrush) can be stored exactly where you need them – and where they look best. Prop up a tablet computer or anything else you like to keep handy. LINERO MosaiQ – special places for everyday things.

kesseboehmer.com/linero-mosaiq »
VERSATILE AND VARIABLE

LINERO MosaiQ

ENDLESS VARIATIONS

THE MULTI-FUNCTIONAL, ANODISED ALUMINIUM RAIL CAN BE EITHER SCREWED OR GLUED TO THE WALL, MAKING IT IDEAL FOR GLASS SPLASHBACKS TOO.

The MosaiQ modules are hung on below or inserted above. The shelf elements come in a choice of three heights with their design accentuated by horizontal décor strips. The colour choices of the matt, tactile coating (graphite black and titanium grey) were chosen in consultation with a well-known design institute; shelf inserts are offered in wood or glass.

Functional elements include hooks and single and double roll holders. There is also an ergonomically designed knife block and containers with angled bases to hold a pot of herbs or kitchen implements. LINERO MosaiQ has been launched with eleven core applications for unlimited mixing and matching. The system helps users make the most of the splashback space in kitchens and bathrooms.

Under-mounted LINERO MosaiQ elements and LINERO 2000 elements are, of course, compatible.

LINERO MosaiQ	2,000 mm	**00 8941**
(stick to stick)		

Optional component to connect two LED
sticks flexibly, eg, around a corner

Colour number: 9003
Switch		
LINERO MosaiQ	66 Ø	**00 8943**
for 20 Watt LED power supply, 230 V/2,5 A		

one end:
flat 2-pin Europlug on 2,000 mm cable
one end:
flat Euro connector on 2,000 mm cable

Colour number: 9003

FEATURES & BENEFITS:

- Extra sockets: "you can never have too many sockets in your kitchen"
- Flexibility: the eBoxx can be positioned anywhere along the rail
- Retrofittable: saves the effort of laying cables under plaster
- A lot of technology integrated in one box: LED driver, sockets and cables neatly integrated in the rail and eBoxx
- Convenient sockets to charge tablets, smartphones, etc. The metal shelf provides secure storage.
eBoxx FOR LINERO MosaiQ

ONE BOX – MULTIPLE FUNCTIONS

KESSEBÖHMER

TODAY'S KITCHENS HAVE TO MEET A LOT OF EXPECTATIONS. Quite apart from their central function – cooking – intelligent and up-to-date energy and socket management is more and more important. It's the only way to cope with the escalating number of electrical appliances. In addition, digital media are moving into the kitchen in a big way. More and more people look up recipes on their tablets or smartphones.

The eBoxx is a practical response to all these demands. It provides extra sockets – that are easy to reach – and a secure place to stand a tablet or smartphone. It also locates and conceals LED splashback lighting components that are necessary, but not decorative. The LED driver, switch and cable are easily stowed out of sight in the eBoxx and the LINERO MosaiQ rail.

NO-DRILL FIXING

IDEAL FOR LINERO MosaiQ

KESSEBÖHMER

The product	Tube contents	Atomiser contents
Product type	Glue	Activator and cleaning agent
Components	2-component	
Volume	One set is enough to glue on 1,500 mm profile	
Load capacity	15 kg per metre	
Application temperature (short – up to 1 hour)	-40°C to 100°C	
	(120°C)	

PowerMaxx IS THE IDEAL SOLUTION FOR ATTACHING THE LINERO MosaiQ PROFILE TO ANY SMOOTH INTERIOR SURFACE. The substrate must be smooth and even and capable of bearing the load. It could be tiles, glass, wood, laminates, metals and many plastics. PowerMaxx can be removed from almost any substrate without leaving any residues.

Gluing instead of drilling makes installation far easier, but the connection is just as strong.

LINERO MosaiQ SHELF SET

DESIGN AND CREATE OPEN-PLAN SPACES

KESSEBÖHMER

**WITH THE LINERO MosaiQ SHELF SET YOU CAN PUT A SHELF EXACTLY WHERE YOU NEED IT.** This is a stand-alone organizer element, optically related to the MosaiQ system, that can be put up anywhere. You choose the height (min. 160 mm) and the design of the 16°mm thick back panel. The back panel takes the hanging slots and links the two shelf angles to create a practical piece of furniture. The shelf angles are available in a choice of four widths and in the colours toning with the MosaiQ system – titanium grey and graphite black.
